EXPERIENCE

Company: Spectrum Networks

May 2023 - Present

Title: IT Engineer I

- Updated desired capacity for EC2 instances using auto scaling group warm pools, resulting in a 30% decrease in time to scale out new instances while also lowering costs due to over provisioning by 20%
- Managed policies/rules for network traffic through firewalls, leading to an 18% decrease in scanned threat activity.
- Monitor Cisco security dashboard and remediate vulnerabilities, resulting in a 50% reduction of the overall vulnerability score within 6 months.

Company: Sun Auto Tire & Service

March 2022 - May 2023

Title: IT Support Specialist

- Supported over 500 locations across the United States, ensuring consistent and high quality support.
- Decreased support call times by 20% in the first 6 months through effective team leadership and problem resolution.
- Troubleshoot and support Microsoft core services including Azure Entra ID, Office 365 Admin Center, and Windows Active Directory, resolving 15-20 issues per week on average.

Company: El Camino College

August 2020 - March 2022

Title: Help Desk Support Specialist

- Imaged and distributed chromebooks for remote students.
